

Accenture: Shape Your Future in Technology

Launch your B.Tech career at a global technology leader. Join cross-functional teams solving real business problems with AI, Cloud and data – where everyday work equals large-scale impact and steep learning.

Why Accenture? Innovate, Impact, Inspire.

Global Leader

Trusted by 90%+ of Fortune Global 500 — exposure to ambitious, large-scale programmes across industries.

Cutting-Edge Technology

Work with AI, Cloud, Big Data and emerging tech on production systems — not just proofs of concept.

Transformative Projects

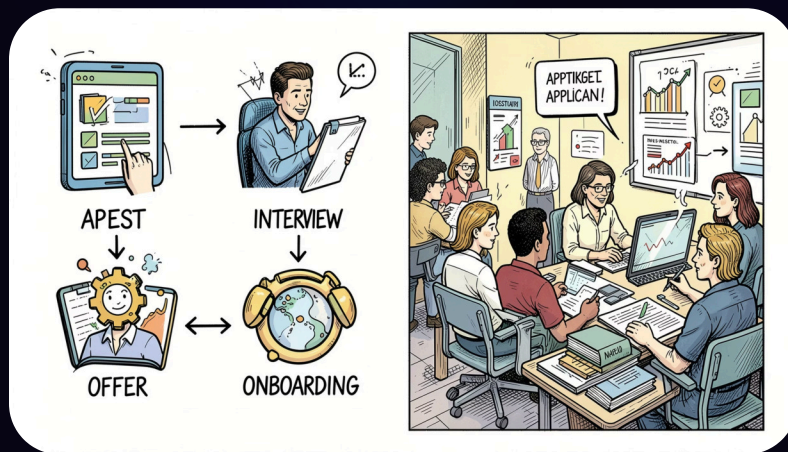

Deliver solutions that change how organisations operate — measurable business value and social impact.

Career Growth

Structured learning, internal rotations, certifications and clear advancement paths to specialist and leadership roles.

The Accenture Hiring Journey: Your Path to Success

01

1. Online Application

Submit CV and profile. Tailor your resume to highlight projects, internships and technologies used.

02

2. Aptitude Tests

Logical reasoning, quantitative ability and verbal – practise time management and mental maths.

03

3. Technical Interviews

DSA problems, system design basics, coding on whiteboard or online editor and questions on your projects.

04

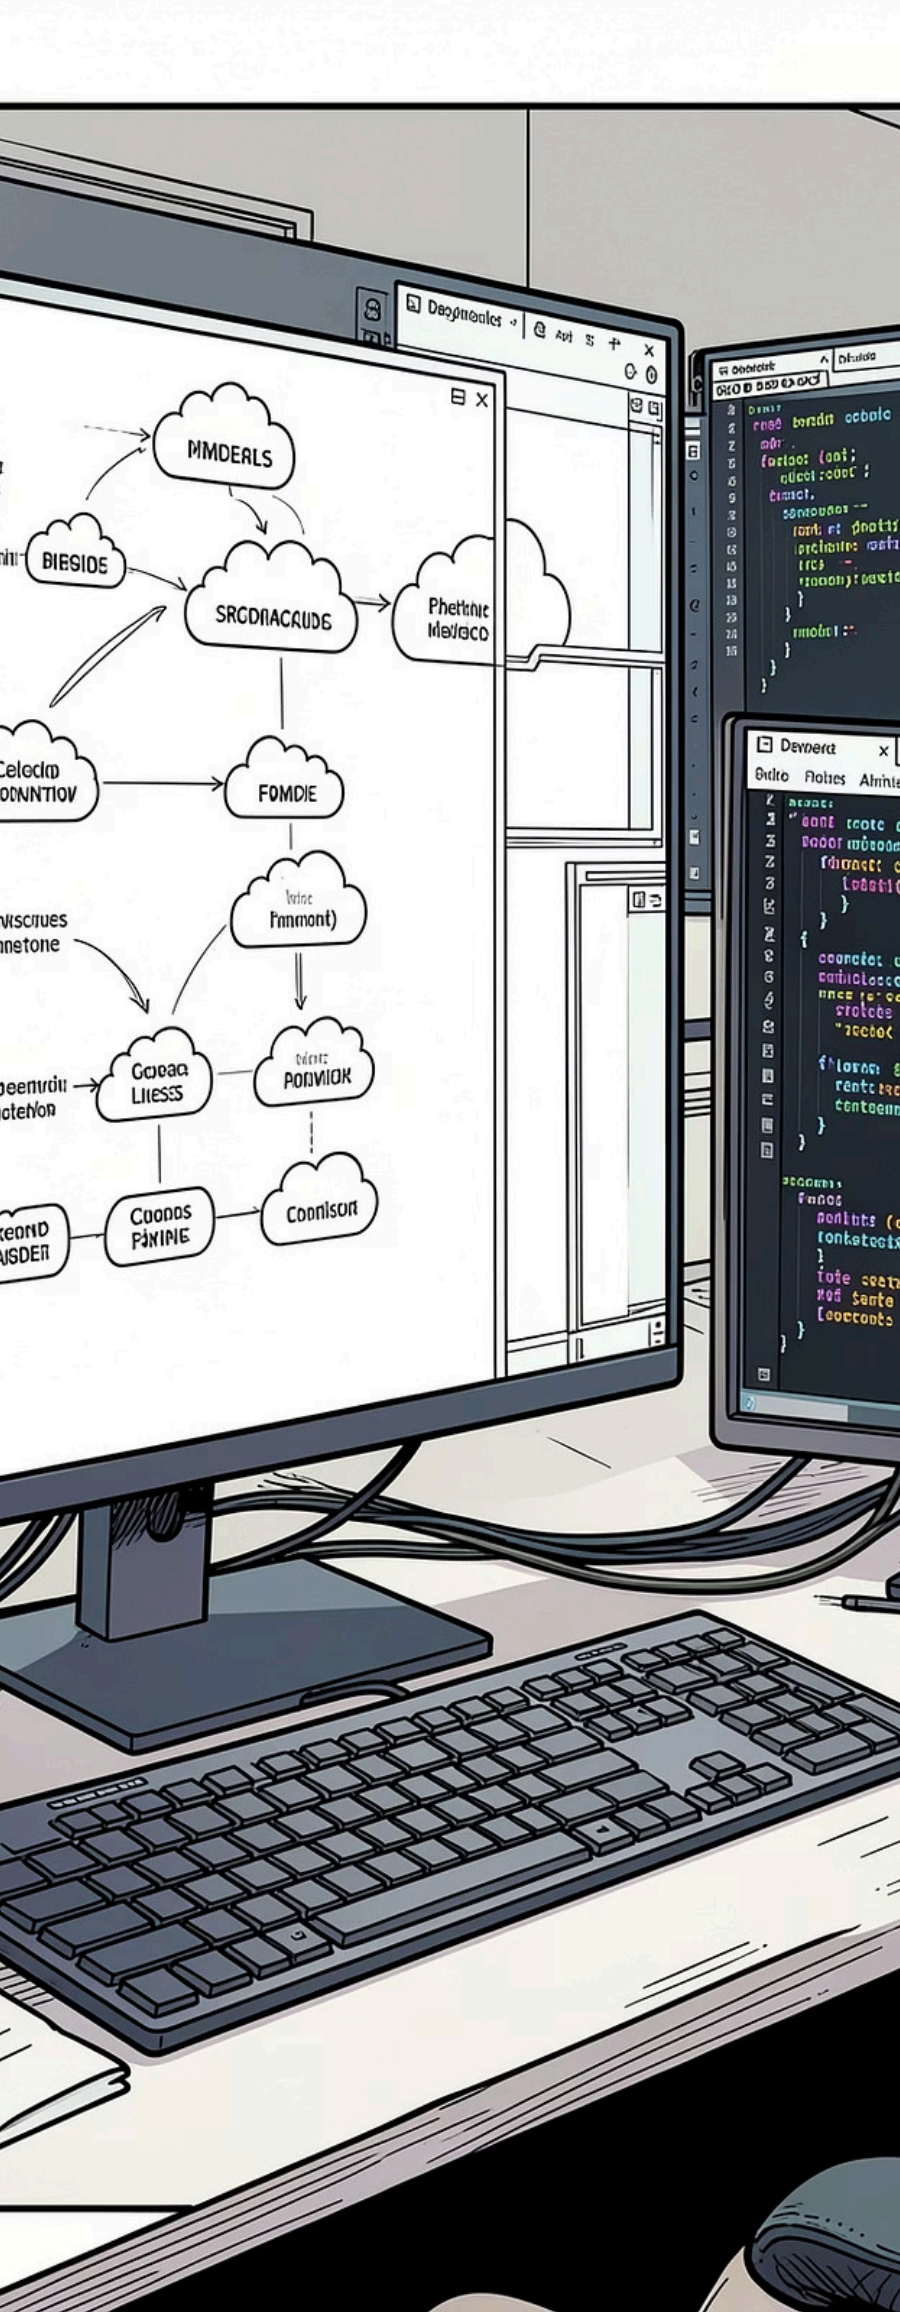

4. HR / Managerial Round

Assess cultural fit, motivation, communication and career goals. Prepare succinct STAR stories.

05

5. Offer & Onboarding

Receive offer, complete background verification and join accelerated training and mentorship programmes.

Accenture's Technical Stack: Powering Digital Transformation

Cloud Platforms

AWS, Azure, Google Cloud – infrastructure, serverless, cloud migrations and managed services.

Data & AI

Python, R, SQL; ML frameworks (TensorFlow, PyTorch); Big Data: Spark, Hadoop; MLOps practices.

Software Development

Java, .NET, JavaScript (React, Angular, Node.js) plus CI/CD, Docker, Kubernetes, Jenkins.

Emerging Tech

Blockchain, IoT, Extended Reality (XR) and industry-specific platforms for rapid prototyping.

Eligibility Criteria: Your Foundation for Success

Academic Minimums

60% or equivalent CGPA across 10th, 12th and B.Tech – maintain consistent academic performance.

Degree & Nationality

B.Tech or equivalent degree. For India campus or entry-level roles, Indian nationality is typically required.

No Standing Backlogs

All subjects cleared at the time of the interview process – plan semester timelines accordingly.

Desirable Extras

Internships, industry projects, open-source contributions and relevant certifications boost your profile.

Accenture in the News: Driving Innovation in 2026

AI Leadership

Expanded AI capabilities and research partnerships to operationalise generative and applied AI for clients.

Sustainability Commitments

Bold net-zero targets and sustainable tech solutions embedded into client roadmaps and supply chains.

Major Cloud Transformations

Recognised for end-to-end cloud migrations and data modernisation projects across finance, retail and telecoms.

5 Essential Preparation Tips

Master Core Concepts

DSA, OOP and system fundamentals – be able to explain trade-offs and complexity.

Practice Coding

Daily problems on LeetCode / HackerRank. Focus on problem patterns and time-boxed practice.

Understand Accenture's Values

Research innovation, ethics and client success stories – align your examples to their priorities.

Prepare Behavioural Answers

Use STAR format for teamwork, conflict, leadership and problem-solving anecdotes.

Stay Updated

Follow tech trends and recent Accenture initiatives to show curiosity and domain awareness.

Your Future Starts Now: Prepare This Week

Take action today: set a 7-day sprint – schedule daily coding (1-2 hours), one mock aptitude test, and one behavioural story review.

- Visit Accenture careers: search entry-level roles and graduate programmes.
- Connect with alumni and mentors – ask for mock interviews and feedback.
- Apply early and track application deadlines; follow up professionally.

Tip: Use the first week to build momentum – small wins compound. Colour accent: **#16FFBB**.

Call to Action

Start your 7-day prep plan now – commit, practise, apply.
